- Godot Engine
- Unreal Engine
- Flutter
- React Native
- Lens Studio

Language

Turkish	Mothertongue
English	IELTS 7.0/9.0 - 2017
Spanish	Beginner
Greek	Beginner

About me

Career highlights

I am passionate about game development though I've broadened my skills to include Flutter, React Native, and other technologies. I enjoy working on diverse programming projects, from solar system simulators to cryptocurrency trading bots.

Personal life

When I'm not at the keyboard, you'll find me doing activities like cycling and swimming and so on. I'm a science and astronomy enthusiast, enjoying everything from reading to watching. And, of course, gaming is my go-to for some laid-back fun.
